The
Chairman
Municipal Council
Bellary

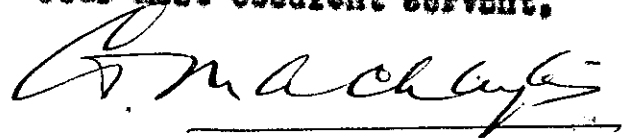

Sir,

I have the honour to forward herewith a - -
copy of the resolutions passed at the meeting of the land-
lords and the residents of the Port and Cantonment area held
on 19/7/1930 at the New Municipal High School buildings - -
regarding the water supply for your information and request
you to take necessary action in the matter.

I have the honour to be,

Sir,

Your most obedient servant,

Chairman of the Meeting.

Enc:- (1) Copy of the resolutions.

~~Notes~~ ~~Notes~~ of the meeting of the Joint Board and residents
of Fort and Cantonment Area, dated 22-1-34.

This meeting consisted of the Joint Board and residents
of Fort and Cantonment Area and resolves to request the Govern-
ment to provide the said Cantonment and Fort Area with pro-
-tected water supply as early as possible and to sanction
the erection of the scheme prepared by the sanitary engineer
referred to in ^{no. 18531-3-D-217.H. Dated 22-1-34} ~~Fort. Memorandum~~ at an early date.

2. This meeting being to submit that the need for water supply
is very urgent and requests the Government to sanction the
said scheme by order of the Government at 1/4 of cost in view of
the fact that there are two Government institutions subse-
-lous hospital and a school which require steady supply
and supply of water more than for the residents of Fort and
Cantonment. This meeting also resolves to request the ~~highest~~
level of water tax from 1-1-30 at a rate of 1000 Rs. per acre
to be reduced to 500 Rs.

Resolved that the Government be requested to sanction the
scheme by order of the Government at 1/4 of cost.

Carried unanimously.

The Chairman of the Fort and Cantonment Area to convey the
above resolutions to the Chairman, District Council, District
of Bellary, Government of Madras.

Carried unanimously.

Thanks to the Chairman of the meeting.

29. Proceedings dated 18-7-30 of the public meeting of land lords and residents of Cantonment & Fort in regard to water supply to the said areas.

Resolution:—

The Council with great pleasure approves of the resolutions passed at the public meeting of the land lords and residents of Cantonment and Fort area and requests the Government to kindly finance the scheme on the same lines as the water supply scheme to Brucepet i.e., by giving $\frac{3}{4}$ amount as grant & $\frac{1}{4}$ amount as loan and sanctions the levy of water tax at $7\frac{1}{2}$ per cent from 1-4-30 in the Cantonment & Fort area..

The council further requests the Government to consider the urgency of the matter and to provide the necessary funds in the coming budget for 31-32 in as much as the Tubercular Hospital has been steadily pressing for water supply at a very early date

Water Supply Scheme - Cantonment area.
Bellary Municipality.

ASB

In July 1928, the San'y Engr submitted detailed plans and estimates amounting to Rs 72,800 for a scheme to supply water to the Cantonment area and the Fort from the Bellary Water Works. The annual maintenance charges were estimated at Rs 4,000. The further consideration of the scheme had to be dropped as the Cantonment Board expressed its inability to finance the Scheme. The Cantonment area has since been included within municipal limits (vide G.O. No 2552 dated 26.6.30). The Bellary M.C. now requests Govt to sanction the extension of the water supply scheme ~~extending~~ and to give a grant of $3\frac{1}{4}$ of the cost and a loan of the balance and to provide necessary funds for its execution in the year 1931-32. The main Scheme has been financed on the basis of a $3\frac{1}{4}$ grant. This Scheme has been designed to supply water to the Cantonment ^{and Fort} area and ~~it is the part of the extension~~ ^{the Cantonment extension scheme} ~~may~~ ^{be deemed} therefore a part of the main Scheme.

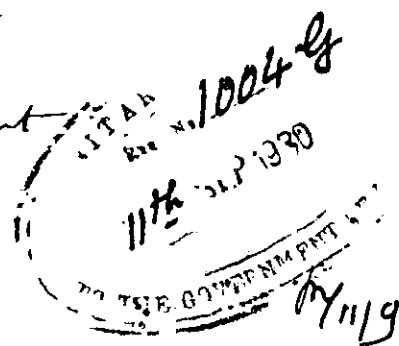

Revised by
A. V. G.

p 189 (P)

In the above circumstances the Council appears to be eligible to a grant of $\frac{3}{4}$ of the cost of the scheme. Before taking further action in the matter the S.E. may be requested to state whether the plans and estimates prepared by him in 1928 require any revision or alteration, what their cost will amount to at the present market rates and whether the scheme is really urgent as represented by the D.P. or whether in view of the present financial stringency its consideration may be postponed to the year 1932-33.

The scheme for the extension of the water supply to Cantonment, Fort and Alipuram Jail, estimated to cost about Rs.72,800 in 1928, will, at present rates, cost only about Rs.58,600 as under, owing to reduction in the price of iron pipes, etc.

=====

No Centage charges are to be made for the extension to Jail as it is a Government work.

2. In the Deputy Sanitary Engineer's report that accompanied this office No.349 G dated 4-7-28 it was proposed to debit the Jail with a portion of the cost of the Booster Station and the common main from the Booster Station to the point where the Jail Branch took off. At that time the intention was to divide the cost proportionately between the Cantonment and the Jail. But as the Cantonment and Fort areas have now been included in the Bellary Municipality and Government proposes to bear as much as $\frac{2}{3}$ cost of the scheme the Jail need not be called upon to share the cost of any portion of the common items.

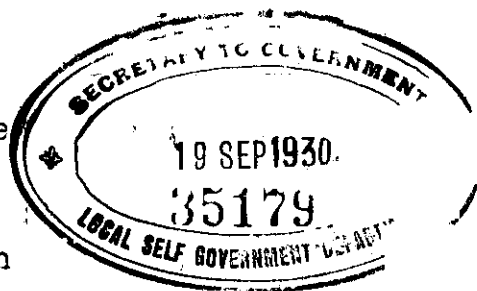

3. So far as the Municipality is concerned the capital cost of the scheme will now amount to Rs.55,000/- after excluding the cost of the extension to the Alipuram Jail amounting to Rs.3600/- ^{As regards maintenance} since all the supply to the Jail is paid for by metering, the entire charge will be borne by the Municipality.

4. -In this connection it may be pointed out that the rate of Rs.2-8-0 per 1000 gallons sanctioned in G.O. No. 91 P.H. MS. dated 16-1-30 for supply of water for domestic use in the Jail seems rather high and might perhaps be reviewed

and reduced to Rs.1-4-0 as one of the conditions for making the special grant of 3/4 cost of the scheme.

5. As regards the urgency of the work, the Cantonment and Fort areas are badly in need of potable water and the Alipuram Jail requires the Municipal supply practically every hot weather. It is therefore desirable that the work is taken up as early as possible.

6. The detailed estimates already prepared will require slight revision at current rates, and a working plan and estimate will have to be prepared for the Booster Station. The revised estimate can be framed and sanctioned by me within a month from receipt of orders to do so.
